NEPAL BUSINESS DEVELOPMENT CONSULTANT

SCOPE OF WORK

OVERVIEW:
The Nepal Business Development Consultant will coordinate with the Director of Business Development, the Country Team of Nepal, and HQ based Practice Area Directors to assist in growing EAI’s portfolio of programming in Nepal. The consultant will collaborate with technical staff to coordinate and lead proposals in Nepal. S/he supports proposal development including supporting the bid/no-bid decision phase and capture efforts; identifying key personal for active proposals, adhering to proposal schedules; and overseeing the capture and providing key information to the development of technical proposals, ensuring they are grounded in Nepal local context.

OBJECTIVES/DELIVERABLES:

Home Office and Field Office Business Development Support

- Supports proposal process for small to mid-range programs funded through Department of State (DOS), US Agency for International Development (USAID), and other bilateral donors.
- Leads proposal efforts in country; this includes but is not limited to driving the proposal’s capture phase, participating, and leading scoping trips, coordinating resources and unit support from across the organization, and seeing the proposal to a successful competitive and compliant submission.
- Provides desk research and critical local Nepal context to support the bid/no-bid process for new opportunities, collaborating with technical directors, field teams, and program managers through a decision-making process that ensures opportunities align with EAI’s strategic priorities.
- Supports the proposal’s technical strategy development process by providing technical and country expertise. This includes drafting, updating, and compiling past performance examples and capacity statements regarding Nepal country expertise.
- As needed and requested, writes specific sections of the technical proposal that require local Nepal context such as executive summary, management approach, staffing plan, and past performance records.
- Supports recruitment of local Nepal staff for proposal and preparing staffing documents.
- Identifies key personnel with specific experience required under a proposal.
- Coordinates with the technical lead to resolve issues with delays or other roadblocks in
the proposal process.

- Supports the technical lead and coster to develop cost proposals, crafting best-value cost strategies and ensuring a unified strategy in both technical and cost proposals.
- Ensures staffing strategy alignment with Human Resource local Nepal policies and procedures, and the technical unit needs to meet proposal staffing priorities.
- Participates in the review and compilation of lessons learned and after-action-reviews of proposal submission processes for EAI.
- Supports field-based business development activities and preparations for new and follow-on projects, including review of internal and external evaluations of projects. As required, provide direct support to development of field-based proposals. This can include conducting competitor analysis research, outreach for strategic partnership, capture trips to gather information and liaison with research and teaming with local partners.
