

SCOPE OF WORK

Resilience for Peace (R4P)

Consultant Title	Consultant for production of and capacity building on radio coverage maps
Period of Performance:	November 11, 2021 – January 31, 2022
Total Level of Effort:	Up to 40 hours
Application Requirements:	CV, Technical offer, Sample maps and cover letter (1 page max)
Deadline to submit applications:	November 8, 2021
Submit to:	r4p_recrutement@equalaccess.org

PROGRAM DESCRIPTION

Resilience for Peace (R4P) is a five-year USAID-funded, EAI-implemented, initiative to strengthen community resilience and learning to counter violent extremism in Cote d'Ivoire's northern border areas. Working with partners Indigo and NORC, the primary aim of the project is to create interventions around the unaddressed social and economic conditions that leave border communities vulnerable to violent extremist organizations' influence. The project will do this by 1) increasing the 'supply' side of responsive services through institutional improvements in natural resource management (NRM), service delivery, government responsiveness, and economic enabling conditions; 2) targeting assistance to support the 'demand' side for improved service and economic opportunities by generate awareness and knowledge of CVE concepts through research and community exchange, and training local advocacy actors; and 3) using dialogues and townhalls to connect government and citizens to foster trust, recognize community pressure points, and strengthen community cohesion and resilience.

OBJECTIVE

The purpose of this consultancy is to produce maps of the coverage area of the project's eleven (11) partner radio stations and reinforce the capacity of project staff to enable them to produce the maps themselves in the future.

SPECIFIC TASKS

PRODUCING MAPS OF RADIO STATION COVERAGE AREAS

- Collaborate with R4P program staff, especially the Media officer, to obtain all information necessary for producing coverage maps
- Set up a data base with all information necessary for producing coverage maps
- Produce one map with the coverage areas of all eleven partner radio stations
- Produce one map for each of the eleven partner radio stations

CAPACITY BUILDING:

- Conduct a remote introduction training to at least three R4P staff (M&E officer, media officer, digital communication officer) in the use of the software to produce radio station coverage maps.
- Accompany and advise these initially trained R4P staff on producing radio station coverage maps on their own.
- Be available to respond to questions and to provide technical support when R4P staff are producing maps

SUPERVISION: Consultant will report to COP and will coordinate closely with R4P staff, especially DCOP and media officer.

LOCATION: The work for this consultancy will be completed remotely.

TIMELINE and LEVEL OF EFFORT:

TASK	DEADLINE	ESTIMATED LEVEL OF EFFORT
Produce one map of the coverage areas of all eleven partner radio stations	Thursday, November 18	Up to 12 hours
Produce one map of the coverage area of each of the eleven partner radio stations	Monday, November 25	Up to 12 hours
Training session for R4P staff on how to produce radio station coverage maps	Friday, December 17	Up to 10 hours
Coaching and advising R4P staff in producing radio station coverage maps on their own	Monday, January 31	Up to 6 hours

QUALIFICATIONS

- Demonstrated knowledge of producing radio station coverage maps with publicly accessible software
- Demonstrated knowledge of the software “Radio Mobile” is considered an asset
- Flexibility and availability
