VACANCY ANNOUNCEMENT – PROGRAM AND MERL OFFICER

Equal Access International (EAI) is an international not-for-profit organization working in several countries in Africa and Asia. With a regional office in Nairobi, we have implemented programmes in Kenya, Somalia, Ethiopia, Tanzania and Djibouti.

EAI creates customized communications strategies and outreach solutions that address some of the most critical challenges affecting people in the developing world in the areas of peace-building and transforming extremism; championing gender equality and women’s empowerment; and governance and civic participation.

We help communities around the world drive sustainable and transformative change through our proven participatory media, technology, and outreach model. By designing solutions with communities, our programming is locally-owned and culturally resonant. We build communication ecosystems that take root and thrive, create platforms that elevate marginalized voices, and build locally-led movements that shift power, inspire normative change and promote creative, positive, and innovative solutions to social issues.

PROJECT OVERVIEW

Nabadgelinta Soomaaliya (also known as ‘Nabadgelinta’) works with both security and justice providers, and the people they serve, to help create a safer, stronger Somalia. The programme recognises the critical role that improved safety, security and access to justice has in establishing the foundations to lasting peace and political settlements in Somalia.

Nabadgelinta will support Somalis to identify and articulate the challenges they face in accessing security and justice and to develop joint solutions that lead to visible, practical change in their experience and trust in the security and justice systems.

Through approaches that enable informed and inclusive dialogue and negotiation, the programme seeks to transform how individuals, communities and institutions in Somalia can work together to create fairer, more efficient, and more accountable systems for security and justice.

As part of a larger pool of local and international organisations implementing the programme, EAI is leading a consortium that includes the BBC Media Action, Perspective Media and the Somalia Women Studies Center (SWSC) to deliver the SBCC and Community Outreach component of the Nabadgelinta Soomaliya program that will be implemented in Jubbaland and the Southwest States of Somalia during the first phase and then expanded to other states in Somalia.

Nabadgelinta will work towards two broad outcomes namely:

- Enhanced resolution of specific security and justice problems identified as priorities by Somalis in target locations.
Leveraging, through learning, social and political influence to effectively catalyse wider programmatic, policy and systematic change to ensure that the impact of Nabadgelinta Soomaaliya is not only felt within our immediate focus areas, but extends into issues and geographies beyond the programme.
